

May 2017

Dear Parent/Guardian

The Ruth Gorse Academy Science Department are continuing their after-school dissection series by hosting a special event making use of our brand new facilities. We would like to invite your son/daughter to observe an eye dissection in our specialist laboratory after school from 2.45 pm to 3.45 pm on Wednesday 17 May 2017.

This is an opportunity for students to experience a science practical with multiple links to both the Key Stage 3 Programme of Study and ideas about cellular biology and anatomy studied at Key Stage 4. Students in Year 8 have studied physics topics related to the eye this year and will be assessed on those topics at the next assessment point. We are therefore inviting students who we feel would most benefit from such an event.

Please return the attached reply slip if you would like your son/daughter to attend.

Yours sincerely

Mr M Shaw  
Deputy Curriculum Leader of Science
